Scholarship Application

(Tuition Funding for Fiber Workshops & Classes)

Up to \$100 - Limited to 3-5 Members/Year

Scholarship recipients are required to present information learned from the class to the guild members upon completion of the class. Their presentation should be arranged through the Program Chair and done in a timely manner upon completion of the class. A mini-workshop with hands-on activities is the ideal format for a presentation to the guild. A demonstration is acceptable, if the information cannot be presented with hands-on activity. The scholarship recipient must provide a handout to each person in the audience plus a copy for the Guild Library. The presenter should be available for further in depth teaching if that is warranted.
